

Amitesh Debnath

Senior Product Designer (UX) | Design systems & Mixpanel

amiteshdebnath98@gmail.com | +91-7003323174 | www.archisapien.xyz | in/amiteshdebnath | Bangalore, India

Summary

Senior Product Designer with 4+ years designing digital products end to end for B2B SaaS and enterprise platforms at a product-driven company. Built and maintained **Design systems** that reduced UI inconsistencies by 35% and review cycles by 20% across products supporting 5+ international markets. Applies UX design, Interaction design, accessibility, usability testing, and **Mixpanel**-informed collaboration to improve developer handoff and implementation accuracy by 30%. Brings end-to-end ownership, design-system maintenance, and a bias for shipping design work while balancing user needs, business requirements, and delivery.

Work Experience

Senior Product Designer (UX), Netradyne, Bengaluru

January 2025 - Present

- Led end-to-end UX design for enterprise B2B SaaS applications, translating business requirements into product experiences across discovery, design, and delivery.
- Built and maintained a centralized **design system**, reducing UI inconsistencies by 35% and review cycles by 20% through component governance and documentation.
- Improved developer handoff and implementation accuracy by 30% through structured documentation and component governance that accounted for **frontend constraints**.
- Enabled deployment across 5+ international markets by embedding accessibility and compliance requirements into product workflows.
- Developed product concepts from requirements, using prototypes and structured documentation to support delivery under frontend constraints.

Product Designer (UX), Netradyne, Bengaluru

July 2022 - December 2024

- Owned end-to-end UX design for enterprise applications, translating operational requirements into understandable user flows for operations and fleet management teams.
- Delivered product concepts across discovery, design, and delivery, using Interaction design to connect user needs with business value.
- Presented design rationale, user insights, and usability findings to leadership, informing roadmap decisions and product direction.
- Optimized product experiences over more than two years, using usability-led design decisions to support retention and global expansion.

Product Designer, HumanX, Mumbai

June 2021 - May 2022

- Designed data-intensive dashboards and customer-facing platforms across enterprise and consumer products, applying UX design to complex workflows.
 - Designed information architecture and interaction patterns, using usability testing to clarify tasks and support retention.
 - Developed wireframes and high-fidelity prototypes from product requirements within nearly one year, supporting product exploration and delivery.
-

Education

Bachelor of Architecture

July 2016 - May 2021

Indian Institute of Engineering Science and Technology (IIST), Shibpur
Kolkata, West Bengal

Skills

- Product Design: Interaction design, UX design, Activation, Engagement, Design systems, Shipping design work, Design system maintenance
- AI-Native Design: Claude Code, MCP, Frontend constraints, AI-native design
- Product Analytics: Mixpanel, Funnel analysis, SQL
